***Letter from Bhanu Suresh Babu
Founder President, CONCERN Trust***

Dear friends

We at CONCERN in the field of De-Addiction rehabilitation have been contributing to the affected community and empowering change in many families since 2008. Since inception we have adopted and followed simple, medical, psychological, holistic and ethical standards.

The journey was arduous. Many a time the tests and trials were difficult to cross over. It was more demanding since we did not deviate or compromise on moral, legal and statutory obligations. We adopt only ethically prescribed practices of rehabilitation treatment.

Our Mission, Vision and Values are altruistic. We stick to them and put it in practical day to day functioning of CONCERN.

It is fulfilling and rewarding to note that CONCERN is rated high in success and in quality by our clients who are in the path of recovery. We wish to remain grateful to all who worked in tandem with us to enable CONCERN to accomplish this reward.

This Year 2024, we have entered a new venture. We have been recognized as “District De-Addiction Center (DDAC)” by the “Ministry of Social Justice and Empowerment (MJSE)” for the Scheme “Nation Plan for Drug Demand Reduction (NAPDDR).”

I thank the Higher Power who had chosen me in this Mission and I thank SBI, well-wishers, donors, volunteers and specially MSJE. My special thanks to all my dedicated staff who stand behind me to walk ahead to fulfill our Vision, Mission and Values.

Regards

Message from Suresh Babu, Trustee – Secretary

It is my immense pleasure to share a few words with our esteemed clients, their families, Sponsors, volunteers, respectful donors and my dear staff.

The menace of addiction to various mood-altering substances is on the rise, today, there is a growing awareness and recognition of addiction as a disease – a change in attitude that releases the suffering ones from the fierce moral condemnation.

Substance use disorders are serious problem adversely affecting the social fabric of the country. Dependence to any substance not only affects the individual's health but also disrupts their families and the whole society. Regular consumption of various psychoactive substances leads to dependence of the individual. Therefore, substance use and dependence needs to be viewed as a psycho-social-medical problem.

It was not easy to meticulously follow our Mission, Vision and Values of CONCERN, particularly in this field of Addiction Rehabilitation. Unlike other ailments, slavery to addiction needs empathy, treatment and follow-ups. A long journey.

Personally, I have the distinction of imparting recovery mechanisms to the affected, for which I am truly grateful to Almighty. Due to vast experience acquired over 30 years, many changes took place in my approach towards recovery.

It is heartening to see the results, by being a tiny part. Believe you me, there is enormous amount of target, left to be done. Hopefully with the support from all the related sectors, CONCERN will grow in recovery stature.

My special thanks to “Ministry of Social Justice and Empowerment” (MSJE) for recognizing CONCERN as District De-Addiction Center (DDAC) for the scheme – National Action Plan for Drug Demand Reduction (NAPDDR).

Kindly accept my genuine gratitude.

Best wishes and Regards
